

The essential toolkit to understanding, using, printing, and designing bar codes.

Bar Code Foundation Seminar

Do you understand how bar codes are created, allocated, and managed? Do you understand the repercussions of poor quality bar codes?

Are you new to the GS1 system?

This seminar will improve your knowledge of bar code management and standards. It will help you to ensure your products can be smoothly handled by everyone involved in getting them to market, and to the customer, avoiding costly delays and inefficiencies.

Benefits of attending this seminar

- Save your business time and money – get your bar codes right, first time
- Protect your business against possible retailer rejection of your products
- Learn new technologies that can assist your business operations
- Bring bar code samples for discussion and expert's comment on quality
- Develop confidence to successfully manage your bar code operations

Learn how to

- Create, allocate and manage item (bar code numbers)

- Understand bar code technical standards – type, size, location, etc
- Improve your supply chain and inventory control with your organisation by using bar codes
- Introduce creative bar codes into your packaging
- Eliminate errors before they cost you time and money

Who should attend?

If you supply into sectors that require bar codes on product and have yet to attend a bar code foundation seminar, then this is for you! It is designed especially for people within your organisation responsible for creating bar codes for your products or those wanting to understand how GS1 bar codes can be used within your business.

Please complete registration form to register for this seminar.

Remember if you are a new member of GS1 New Zealand you can use your complimentary Bar Code Foundation Seminar voucher to attend this seminar free of charge.
