

GS1net Implementation Services

GS1 New Zealand offers a number of services to assist companies with their **GS1net**® Integration and Implementation projects. Regardless of the size of your company, you can take advantage of the Professional Services Team’s significant experience, expert guidance, and independent advice to ensure your GS1net project solution is appropriate to your company’s specific needs. This will also ensure your project costs and time-frames to become **GS1net Ready**™ are minimised.

If you are a current ‘Live’ GS1net user please see the separate *GS1net Enhancement Services* document for details about how GS1 NZ can support you enhance your Master Data Management capabilities and the way you currently interact with GS1net.

For your journey to become GS1net Live with your customer, each company **must select one** of the following 5 **CORE** services.

GS1NET ESSENTIAL		(CORE SERVICE)	
<p>Provides the minimum level** of GS1 support required for you to become GS1net Ready. This service approach is suitable for companies who want to conduct the GS1net Implementation Project with your own resources. This minimum service offering includes: Access to the GS1net help-line, Post registration ‘Project Start-Up’ meeting, Unlimited GS1net short courses, Browser Upload Service establishment (if applicable), Review of GS1net reference documentation, , Two data validation reports, and GS1net Ready review & signoff.</p> <p>Each company on-boarding onto GS1net must select this service level as a minimum in order to be able to progress to a GS1net Ready status with your customer(s). A sliding discount applies if you are already using GS1net with another NZ customer. Discounts also apply if you are using GS1net Certified Middleware. Please enquire with GS1 NZ</p>			
Fees*	1 st Data Recipient	2 nd Data Recipient	3 rd – N Data Recipient
0-50 Catalogue GTINs	\$895	\$445	\$295
51-250 Catalogue GTINs	\$1395	\$695	\$295
251-1000 Catalogue GTINs	\$1995	\$995	\$295
1001-2000 Catalogue GTINs	\$2495	\$1245	\$295
+2001 Catalogue GTINs	\$2995	\$1495	\$295
<p>* If you choose to upgrade to another CORE service the fees will be prorated. ** If you are going to connect to GS1net using a direct connection (DDF, XML) then this offering is not applicable.</p>			

GS1NET EXTENDED ESSENTIAL	(CORE SERVICE)
<p>GS1net Extended Essential is an enhanced version of our generic GS1net Essential offering. This offering is normally used by organisations that are confident they can perform the GS1net work themselves but require one point of contact and additional flexibility on how and where they engage with GS1 NZ.</p> <p>With our vanilla GS1net Essential you are provided with access to our GS1net Team at GS1 NZ. However, with GS1net Extended Essential you get a member of the GS1net Team specifically assigned to you for the duration of your project to become GS1net Ready. This service offering includes all of the components of the GS1net Essential but offers far more flexibility to how we provide these components. Specifically the offering normally offers - Access to the GS1net support via dedicated GS1 team member, Access to GS1net short training sessions, Browser Upload Service establishment (if applicable), Post registration ‘Project Kick-Off’ meeting, Review of GS1net reference documentation, Data validation reports (as many as required), Additional one on one training sessions, and GS1net Ready review & signoff.</p> <p>This service is charged on a time and materials basis meaning you will only pay for the GS1 time utilised</p> <p>Cost: GS1net Extended Essential - \$1,050[∇] per day (typical is 3 - 6 days) [∇] (Plus GST. Travel and living expenses charged separately, at cost, if incurred)</p>	

Pre-Implementation GS1net Services

The following services are **optional** and can greatly enhance the success of your GS1net implementation project when combined with the appropriate **CORE** implementation service. These services traditionally happen before you get start your GS1net project (Pre-Implementation)

GS1NET EDUCATION & TRAINING SESSIONS

Provides an introduction to GS1net, covering: **an introduction to the online system, key GS1net concepts, GS1net catalogue structure, static item and pricing data values, and data upload methods**. Sessions can also be tailored to support the training of your GS1net users on how to use GS1net within their respective roles.

This type of session is predominantly used prior to a project being formally kicked-off. It is also often repeated in a tailored fashion for your GS1net users, prior to becoming GS1net Live.

Cost: Company Specific ½ Day Training Course: \$600[▽]
[▽] (Plus GST. Travel expenses charged separately, at cost, if incurred)

GS1NET REQUIREMENTS DEFINITION WORKSHOP

Designed for companies of any size wishing to formalise their GS1net project to help ensure success. It is aimed at key project stakeholders and potential project resources. Provides a detailed understanding of the requirements to become **GS1net Ready**. Will provide a basis for you to understand **what, how, who and when** to complete the required components to a successful GS1net project. We will come on-site and deliver a 1 day workshop and provide you with a report summarising the results of the workshop (incl task and resource plans and accompanying recommendations)

This type of session is often used prior to a project being formally kicked-off. Provides a basis for enabling resources and starting your GS1net project. It also gives your company a head start in the project planning process for your GS1net project.

Cost: 1 day GS1net Requirements Definition Workshop incl report: \$1,750[▽]
[▽] (Plus GST. Travel and living expenses charged separately, at cost, if incurred)

GS1NET DATA COLLECTION WORKSHOP

Designed for small companies where the responsibility for GS1net will reside with one or two people. The workshop provides a base understanding of GS1net covering: **an introduction to the online system, key GS1net concepts, GS1net catalogue structure, static item and pricing data values, and data upload methods**. The second half of the workshop will focus on hands on training of the GS1net online tool and/or Browser Upload Template and will include the **physical collection of a subset of your data**. If possible we will load a complete record onto the GS1net solution.

This type of session is often used as a means of kick starting the work required to become **GS1net Ready**. It provides training required to continue with the GS1net data collection on your own accord.

Cost: 1 day GS1net Data Collection Workshop: \$1,050[▽]
[▽] (Plus GST. Travel and living expenses charged separately, at cost, if incurred)

GS1NET DATA GAP ANALYSIS

Designed for companies who want to assess your trading partners GS1net data requirements against the data they current have within their company. GS1 will run a 0.5 day workshop and provide a detailed Data GAP analysis report.

This type of session is often used very early in the project to determine the magnitude of Data GAPs that need to be closed which impacts the amount of work required.

Cost: 0.5 day GS1net Data GAP Analysis incl report: \$1,050[▽]
[▽] (Plus GST. Travel and living expenses charged separately, at cost, if incurred)
