

To GS1 New Zealand Request for Transfer of Membership

- A request for transfer of membership arises when the business of an existing member is acquired by a new member and integrated into the operating activities of the new member. The new business requires to be under the control of one management structure.
- A request for the transfer must be authorised by both the transferor and transferee members.
- All Global Location Numbers, GTIN 13 Numbers and any GTIN 8 Numbers must be confirmed for the transfer to be completed.
- If the transferor is GS1net registered then GS1 will need to be advised of the arrangements for existing catalogues.
- If the transferee is not an existing member of GS1 then a full membership application is required before any request for transfer can be processed.
