

Background

Representatives from a significant number of Medical Device Suppliers in NZ attended a recent HSC webinar, hosted by Peter Stevens (*CEO of GS1 New Zealand*) on 9 November 2021.

The webinar featured discussion with Shayne Hunter (*DDG - Data & Digital at the Ministry of Health*) and Cushla Currie (*CEO of MTANZ*), regarding the benefits of the HSC Programme to the NZ Health Sector.

As a result of this informative and successful webinar, Medical Device Suppliers have already contacted HSC seeking to be involved in the HSC Programme.

Now is your opportunity to participate!!!

Calling all Medical Device Suppliers

- The HSC Programme is gathering momentum as we head towards our first key milestone of “View” in **Dec-21**. This will be followed by the important next step of “Interact” in late **Mar-22**, where DHBs will be able to extract item and pricing information from the HSC to use in their own Purchasing Catalogues.
- Following initial engagement activities with the first group of Suppliers, we are now extending an invitation to all Medical Device Suppliers in NZ to participate in the development of the HSC.

Yes, I want my products in the HSC! How do I get involved?

1. Email us at hsc@nzhp.health.nz to register your interest and for any further information you require.
2. We’ll organise an initial discussion with you, which will likely include a representative from GS1 (as our preferred publishing channel).
3. From there, we’ll determine next steps and what you need to do to get your data ready and your products into the Health System Catalogue.

It’s that simple!
