

Summary of Progress

The growth of the Health System Catalogue continues, 76 Suppliers have now provided a total of 114,195 GTINs. In addition, a large number of suppliers are in the final stages of data gathering. The Supplier Portal is now complete and is being tested using data from a small group of Early Adopter Suppliers. A total of 18 public hospital Districts are now accessing the catalogue and searching the HSC for product information.

Thank you for your ongoing support as we continue to develop the Health System Catalogue to support the NZ Health System.

HSC Progress Update

- Our initial focus was to get a solid foundation of product data into the HSC for the “View” phase, which was achieved. The number of suppliers and products continues to grow.
- Configuration of the Supplier Portal is now complete, and two Suppliers are now “live” in the HSC. We expect the Portal to be ready for general use at the end of July. Special thanks to the following Suppliers who worked with us as we finalised and tested the Supplier Portal:
 - Rumina Natural Care Limited
 - Alimetry
 - WS Medical Ltd
 - Specialist Medical Products
 - Permobil New Zealand Limited
- Public Hospital onboarding to the HSC is progressing in a systematic phased approach. At the time of writing, 18 Districts now have access to the HSC, the remaining 2 (*Waitemata and Tairāwhiti*), are scheduled in July.
- Discussions continue with Logistics and supply chain providers. We are working on an initial solution as a priority.

For further information or enquiries, please contact hsc@nzhp.health.nz

COMPLETED (since last update)

- DHB onboarding continues, with a systematic rollout in progress. 18 DHBs now have access to view items.
- We now have a total of 76 Suppliers who have provided product data.
- The Supplier Portal is finalised, and two early adopter suppliers have now published data to the “live” HSC.

PLANNED (for next period)

- Continue onboarding of Suppliers, item and pricing information.
- Finalise the Supplier Portal for general use.
- Progress the process for logistics and supply chain providers.
- Match data from public hospitals and Pharmac to the supplier provided data, to create a sector wide view (for each item).

Suppliers who have provided data to the HSC

Thank you to all the Medical Device Suppliers who have been working with us to publish product and pricing information. A full list of suppliers who have published data as at the time of writing is outlined below.
