

# ProductFlow Data Fix

**ProductFlow Data Fix** is an optional value add that GS1 New Zealand provides. We can amend any incorrect data when assessing the physical product that you have supplied via the ProductFlow service.

- GS1 New Zealand will only resolve National Product Catalogue data errors where a physical product has been received, where correct data attributes can be physically confirmed, or are confirmed by you.
- There is no cost to opt in to the ProductFlow Data Fix service with no additional costs.
- Some data fields will not be amended by GS1 New Zealand, but we'll advise changes for you to make. These include but are not limited to: pricing data, internal data (e.g. SKU codes), release dates, dangerous/hazardous goods information, liquor market segment, pallet information.

Full Terms & Conditions for ProductFlow Data Fix can be found in the [NPC Ts & Cs here](#)
