## 1 Introduction

GS1 ProductRecallNZ is a standardised, industry-driven communication tool enabling organisations of any size, including manufacturers, wholesalers, retailers and importers, to share real-time product recall and withdrawal notifications with their trading partners in a secure and efficient manner.

GS1 ProductRecallNZ is based on a global and scalable GS1 Product Recall platform that is operating in many countries around the world.

GS1 ProductRecallNZ standardises the recall and withdrawal communication process based on comprehensive business requirements gathered during numerous workshops with industry and government representatives.

This online portal aims to facilitate easier communication with trading partners and key government agencies efficiently with a view to reducing business risks.

GS1 ProductRecallNZ is a service offered by GS1 New Zealand, a not-for-profit organisation, on a cost recovery basis. The aim is to ensure it is accessible by all businesses, big and small.

**NB:** GS1 will also provide, on request, 'Internal Locations' for your organisation on the system at a price of \$95 per location per annum. Locations are typically set up to provide extra internal recall points of contact an organisation might require (eg: warehouse or distribution centre or retail arm, supermarket or service station).

This fee structure has been designed based on an "insurance" model, where a low fee is levied to all users on an ongoing basis regardless of the number of recalls or withdrawals issued. This approach ensures that GS1 ProductRecallNZ remains accessible by all organisations on a cost recovery basis.

---

A company's Gross Annual Turnover has been used to develop fee brackets which provide for a lower cost to smaller companies and is consistent with the approach taken to calculate other GS1 membership and service fees.

## **2.2 SMS Fees**

Pricing for SMS fees is 10 cents per text message.

---

## **3 Waiting Period**

A waiting period of **8 weeks** applies to the use of GS1 ProductRecallNZ for the purpose of issuing recall and withdrawal notifications.

The 8 week period applies from the time the organisation has accepted the Terms and Conditions of Use in GS1 ProductRecallNZ. If you have not paid all of the initial fees payable in respect of your use of GS1 ProductRecallNZ by the end of the waiting period, the waiting period continues until those fees have been paid.
